[Underlying Framework Browser Compatibility](#)

Browser Compatibility for Storefront Next

Check out the browsers that Storefront Next supports for various devices and desktops.

Mobile Phones and Tablets

Operating System	Browsers
Android	Last two major versions of Chrome and Samsung Internet
iOS	Last two major versions of Chrome and Safari

Desktops and Laptops

Operating System	Browsers
macOS and Linux	Last two major versions of Safari, Firefox, and MS Edge
Windows	Last two major versions of Chrome, Firefox, and MS Edge

Underlying Framework Browser Compatibility

Storefront Next's browser compatibility depends on its underlying frameworks: Vite and Tailwind CSS. These frameworks set the minimum baseline browser versions, which are often lower than what Storefront Next officially supports, which is the last two major versions of each browser. Storefront Next doesn't guarantee support for these baseline versions for older browsers, especially for browsers that are more than two years old. For reference, these are the baseline browser versions that are supported by Vite and TailwindCSS.
